Tension

6 sts. and 7 rows equal one inch over pattern when slightly stretched.
(No. 7 needles).

N.B. The tension of the knitting controls the size of the finished garment. Before commencing cast on 16 sts. and work in pattern for 14 rows. If your sample has less sts. per inch than our tension, try again with smaller needles and vice versa, then work the garment on the needles which produce our tension.

Casting on—Thumb Method

2 yards from the end twist the wool round the left thumb to make a loop and knit this loop onto the needle from the ball of wool. Repeat till required number of sts. are on the needle making the loop from the 2 yards and knitting from the ball. This method of casting on should always be used.
